SOCKS

AirLite Socks

Stylish **performance socks** with a comfortable feel - breathable and with a focus on sustainability.

On the inside, silky-soft cotton pampers your foot, while the **recycled AirLite DryTouch** polyester exterior enhances the socks' functionality.

Our **breathable, high-tech material**, with its channeled fibers that facilitate moisture and air transport, ensures that air easily passes from the outside to the inside and moisture is released from the inside to the outside - for an optimal microclimate of the feet. Also, if it becomes sporty more demanding.

The socks are not dyed in the conventional dyeing process with chemical additives, which uses and pollutes a lot of water. WAVE HAWAII AirLite socks get their designs using the latest 360-degree printer technology. **No water is used** for this and the energetic expenditure is limited to a minimum.

Material: 70% recycled Polyester, 25% Cotton, 3% Polyamide, 2% Elastane

Sock size S/M: Optimal for shoe size 36 - 41

Sock size L/XL: Optimal for shoe size 42 - 47

AirLite-Socken

Stylische **Performance-Socken** mit angenehmem Tragegefühl – atmungsaktiv und mit dem Fokus auf Nachhaltigkeit.

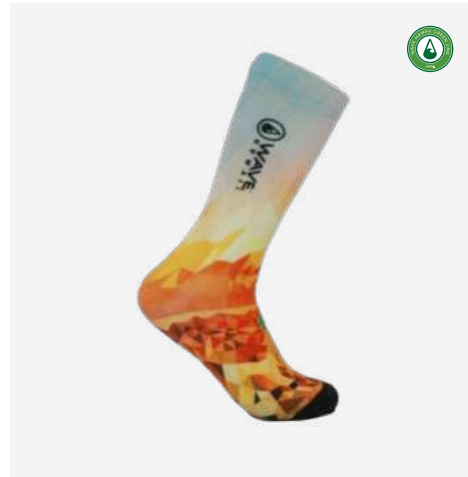

Auf der Innenseite verwöhnt seidenweiche Baumwolle deinen Fuß, während die Außenseite aus **recyceltem AirLite DryTouch**-Polyester die Funktionalität der Socken verstärkt.

Unser **atmungsaktives Hightech-Material**, das mit seinen kanalisierten Fasern den Feuchtigkeits- und Lufttransport erleichtert, sorgt dafür, dass Luft leicht von außen nach innen gelangt und Feuchtigkeit von innen nach außen abgegeben wird – für ein optimales Mikroklima der Füße. Auch, wenn es mal sportlich anspruchsvoller wird.

Die Farbgebung der Socken erfolgt nicht im herkömmlichen Färbeprozess mit chemischen Zusatzstoffen, bei dem viel Wasser gebraucht und verschmutzt wird. WAVE HAWAII AirLite-Socken erhalten ihre Designs mittels modernster 360 Grad-Druckertechnologie. Dafür wird **kein Wasser verbraucht** und der energetische Aufwand beschränkt sich auf ein Minimum.

AirLite MULTIFUNCTIONAL WEAR

Multifunctional Wear

Super-soft and sustainable AirLite multifunctional wear for universal everytime use. Originally designed as water sports underwear, it is our most **universal everytime multifunctional wear** ever. Whether during the day at work or in your free time, when chilling on the couch or in the evening at the club, during Sports, under your wetsuit or as swim wear. With a **12-month long-life guarantee** including feel-good factor and optimum microclimate in all conditions.

The **perforated, special AirLite fabric blend** made from recycled mesh polyester and the flat flatlock seams ensure **maximum comfort with the fastest drying time**.

This underwear is **produced with the lowest possible environmental impact**. Around 2 - 3 recycled plastic bottles are shredded to produce the yarn for one piece of underwear. This uses **significantly less water and energy** than other materials. This not only protects the environment, but also reduces the burden on landfill sites.

The advantages are a **soft and comfortable fabric** on the skin. No fabric we know of dries as quickly as our special AirLite fabric. Among other things, the perforations in the material ensure an **optimum microclimate** in sensitive areas of the body. The comfort of the multifunctional wear is reflected in the flat flatlock seams, the comfortable fit and the pleasantly soft feel.

Material: 90 % recycled and super-soft

Multifunktionswäsche

Supersofte und nachhaltige AirLite-Multifunktionswäsche für den universellen Everytime-Einsatz. Ursprünglich als Wassersportunterwäsche konzipiert, ist sie **unsere universellste Everytime-Multifunktionswäsche** überhaupt. Ob tagsüber bei der Arbeit oder in der Freizeit, beim Chillen auf der Couch oder abends im Club, beim Sport, unter deinem Wetsuit oder als Bademode. Mit **12-monatiger Longlife-Garantie** incl. Wohlfühlfaktor und optimalem Mikroklima bei allen Bedingungen.

Die **perforierte, spezielle AirLite-Gewebemischung** aus recyceltem Mesh-Polyester und die flachen Flatlock-Nähte sorgen für **maximale Wohlfühlgarantie mit schnellster Trocknungszeit**.

Diese Unterwäsche wird mit **geringster Umweltbelastung** produziert. Etwa 2 – 3 recycelte Plastikflaschen werden geschreddert, um das Garn für ein Wäschestück zu produzieren. Dabei wird **deutlich weniger Wasser und Energie** verbraucht als bei anderen Materialien. So wird nicht nur die Umwelt geschont, sondern gleichzeitig auch die Mülldeponien entlastet.

Die Vorteile sind ein **weicher und bequemer Stoff** auf der Haut. Kein uns bekannter Stoff trocknet so schnell wie unserer AirLite-Spezialgewebe. Unter anderem die Perforierung im Material sorgt für ein **optimales Mikroklima** an den sensiblen Körperregionen. Der Komfort der Multifunktionswäsche zeigt sich in den flachen Flatlock-Nähten, der bequemen Passform und der angenehm weichen Haptik.
